

# Beyond the Milky Way

www.deepskycolors.com

## Contents

<b>FIRST STEPS.....</b>	<b>7</b>
Nightsapes.....	7
Astronomy Clubs.....	8
Decision.....	9
How much money should I spend?.....	12
<i>Less than \$,2000.....</i>	13
<i>From \$2,000 to \$4,000.....</i>	14
<i>From \$4,000 to \$7,000.....</i>	15
<i>From \$7,000 to \$10,000.....</i>	15
<i>Above \$10,000.....</i>	15
<b>GEAR.....</b>	<b>16</b>
Considerations when shopping around.....	16
Too many telescopes!!.....	17
A few words about mounts.....	19
DSLR and astro cameras: the light we capture.....	22
Modifying your DSLR.....	23
Getting a new camera.....	24
CCD vs DSLR or... CCD vs CMOS?.....	25
What we want in a sensor.....	26
<i>Dynamic Range.....</i>	26
<i>Quantum Efficiency.....</i>	26
<i>Noise.....</i>	27
<i>Sensor and pixel size.....</i>	28
<i>Mono or color?.....</i>	30
<i>The camera itself!.....</i>	32
More stuff.....	33
Telescope mounting accessories.....	33
Finder.....	34
Cables, cables, cables.....	34
ASCOM.....	35

Focuser.....	35
Filter wheel and filters.....	36
Laptop.....	39
Software.....	40
Batteries and comfort.....	42
<b>BEFORE THE FIRST NIGHT.....</b>	<b>43</b>
Tracker.....	43
Laptop.....	44
Mount.....	45
Camera, scope, adapters in between.....	46
Filter wheel, filters.....	48
Focuser.....	48
Guiding system.....	49
Cables and batteries.....	50
Anti-dew bands and other helpful items.....	51
<b>FIRST NIGHT OUT.....</b>	<b>53</b>
Planning your target.....	54
Season.....	55
<i>Spring</i> .....	55
<i>Summer</i> .....	56
<i>Fall</i> .....	57
<i>Winter</i> .....	59
Planning.....	60
Shot times!.....	61
Driving away - where to go.....	63
Setting up.....	64
Polar Alignment.....	64
Star alignment - slewing for the first time.....	67
Framing our target.....	68
Focusing.....	70
Guiding.....	72
Shooting.....	74
I'm done.....	74
As the session goes by.....	75
Capturing your calibration frames.....	77

<b>DEEP SKY IMAGE PROCESSING.....</b>	<b>81</b>
Introduction to deep-sky image processing.....	81
Software.....	82
Welcome to PixInsight.....	82
<i>Applying processes</i> .....	85
<i>Dynamic Interface Buttons</i> .....	86
<i>Layers?</i> .....	87
<i>Previews</i> .....	87
<i>Masks in PixInsight</i> .....	88
Other applications.....	89
First deep look.....	90
Calibration, registration and stacking.....	91
All at once.....	92
Manual calibration, registration and stacking.....	95
Linear Processing.....	96
First post-processing steps.....	97
Cropping.....	99
Gradient Removal.....	100
<i>ABE</i> .....	102
<i>DBE</i> .....	103
<i>Evaluating the background model</i> .....	105
<i>Single color vs separate channels</i> .....	106
RGB combination.....	107
Color balance.....	107
<i>Background Neutralization</i> .....	108
<i>Color Calibration</i> .....	108
Deconvolution.....	109
Noise Reduction.....	111
First non-linear stretch.....	111
<i>The Histogram Transformation tool</i> .....	111
<i>Performing our first stretch</i> .....	114
Color punch.....	115
<i>Curves Transformation</i> .....	116
<i>Color Saturation</i> .....	107
LRGB combination.....	118
Further enhancements, non-linear processing.....	119
Removing green casts.....	121
Noise Reduction.....	122
<i>Masking the noise</i> .....	122
<i>ACDNR</i> .....	123
<i>TGVDenoise</i> .....	124

High Dynamic Range (HDR) compression.....	126
Star Masks.....	128
<i>Playing with StarMask</i> .....	132
Morphological Transformation: Reducing star presence.....	133
<i>Getting the stars out of the way</i> .....	135
Sharpening (and noise reduction) - MMT.....	138
<b>Putting it all together, best of both worlds.....</b>	<b>141</b>
Bringing our PixInsight images to Photoshop.....	142
Layering PixInsight.....	143
It's a simple roadmap.....	145
One problem at a time.....	146
Seeing is believing.....	147
Saving for web and print.....	149
<b>The End.....</b>	<b>150</b>
